Sadly more people than ever on the Central Coast and North Shore do not have a safe place to live. There are lots of people sleeping in cars, tents, or on couches. Some children do not have a home of their own to go to each day. The Central Coast and North Shore has

The Central Coast and North Shore has experienced a 15% increase in homelessness between 2015 and 2025

## Almost 1 in 5 people who don't have a safe place to go home to are kids and teenagers.

17% of people experiencing homelessness in Australia are under 18 years.

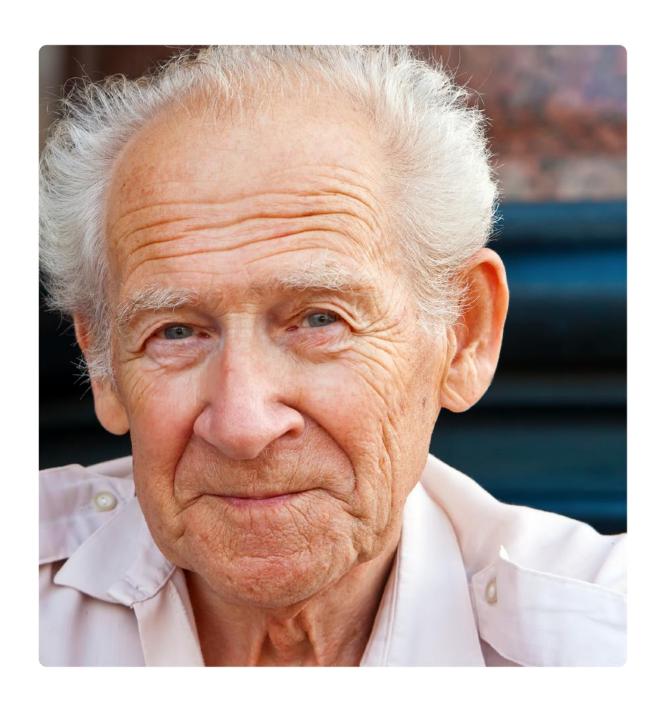

## There's been a very big increase in older people becoming homeless which is very sad.

There has been a 28% increase in Australians aged 55+ experiencing homelessness.
