FREE

Music therapy is used as a fun and creative medium to connect parents and their young children. This develops bonding and attachment and highlights the importance of focused and fun time together.

Activities such as action songs, playing instruments, dancing and singing address early learning and child development goals such as communication, social interaction, cognitive learning and motor skills.

Note: Please arrive at 9.45am so you have time to settle your child and chat with other group members so we can commence the program on time. A total of 10 families with children aged 0 - 3 years can join this program.
